Ministry of Education will provide specific Teacher Training for the Health Sciences curriculum.

## CONTEXT

The main curriculum goal is to adequately prepare students to study a range of health science degrees such as nursing, paramedic, Emergency Medical Training (EMT) at higher education institutions. The programme aims to increase health literacy, improve self-efficacy, enhance social responsibility and introduce students to Health careers. Students learn to obtain, interpret and apply health information and services in ways that protect and promote personal, family, and community health.

The Ministry of Education have implemented a new Health Sciences curriculum for boys and girls, to empower students with the necessary skills to help them realise their full potential. The Health Sciences curriculum is delivered in all Cycle 3 Boys and Girls schools across the UAE (Grades 11 and 12). The Ministry of Education is leading a change in the education system across the UAE and aim to prepare students for a better tomorrow, equipping them with the necessary skills to become valuable members of their respected communities.

### Overview:

- A new curriculum that covers a range of topics to include Health and Wellness, Psychology, Nutrition, First Aid and Safety, Disease Prevention, Dealing with Accidents and Emergencies.
- A highly practical and theoretical driven curriculum that recognises the value in developing the student as a whole.
- Students acquire health and life skills through a broad range of topics in order to avoid risk of injury to self and others, at home, school, and in the community.
- Students are enabled to comprehend the holistic concept of health and wellness and its relationship to healthy lifestyle.
- Students will enhance their critical thinking and awareness about environmental hazards and their impact.

Our ideal candidate is a qualified teacher/trainer with energy, enthusiasm and a passion for motivating students to achieve their full potential. The ideal candidate should be adaptable and have full commitment to the profession and show resilience in dealing with the challenges of this position. This is an opportunity to join a simply remarkable team who are raising the standard of education across the UAE and empowering students to realise their full potential.

## Job Statement

As a Teacher of Health Sciences, you will be an outstanding classroom practitioner who consistently demonstrates the highest standards of delivery. You will be fully committed to raising attainment and acutely aware of the strategies required to achieve the highest standards. You will be the leading example in your school and go above and beyond your duties to ensure students receive the best possible learning experience and fully prepare students to commence higher education.

## Essential Functions

Principal duties and responsibilities: The role will encompass all of the following, but the balance of duties and responsibilities will be determined in discussion with the project manager or principal:

### The teacher of Health Sciences should:

- Conduct themselves in an exemplary manner at all times.
- Be a positive role model to students.
- Possess outstanding subject knowledge.
- Commit to innovation in teaching and learning strategies.
- Possess strong planning and organisational skills.

<b>Discipline:</b>	Health Sciences Teacher (Male and Female)	<b>Publication:</b>	V1
<b>Project:</b>	English Department	<b>Published Date:</b>	April 2018

- Demonstrate a positive attitude and passion for the role.
- Show resilience when faced with challenging behaviour.
- Demonstrate strong communication and leadership skills.
- Create a positive learning environment that encourages students to take ownership of their learning.
- Be confident and professional in appearance and conduct themselves with integrity.
- Show an aptitude and sensitivity to working with UAE National students.
- Be enthusiastic and show a willingness to engage in continuous professional development.

**The teacher of Health Sciences will be responsible for the delivery of the following key priorities:**

- To promote and drive the Health Sciences curriculum forward in line with the vision of the Ministry of Education.
- To provide outstanding teaching to maximise students achievement across a wide and diverse range of health-related topics.
- To ensure all our students are able to thrive and engage in both academic and vocational learning.
- To ensure all our students achieve their full potential and become well rounded individuals.
- To execute and support the planning and delivery of a diverse programme that meets the individual needs of each student.
- To support and challenge students of varying levels of ability.
- To motivate and inspire students and empower them to commit to personal development.

**You will inspire other staff by:**

- Understanding national standards as set by the Ministry of Education with respect to Health Sciences and ensuring these are followed and implemented at all times.
- Using effective target setting systems for all students within the Health Sciences curriculum.
- Identifying effective intervention and mentoring strategies for students within the Health Sciences curriculum.
- Being an outstanding practitioner and demonstrate a flexible teaching commitment depending on the needs of your school and the role.
- Share your best practice to other colleagues in professional development sessions.
- Researching the best teaching and learning practices, motivation and classroom management strategies.
- Attending meetings, professional development and committees as required.

**You will enhance the future of UAE students by:**

- Teaching students according to their educational needs, including the appropriate setting and marking of work.
- Inclusivity of all students to ensure each individual receives a meaningful learning experience.
- Personalising the learning experience to meet the specific needs of all students.
- Assessing, recording and reporting on the attendance, progress, development and attainment of students whilst keeping electronic records as required.
- Ensuring a high quality learning experience for students, which meets internal and external quality standards.
- Identifying effective intervention and mentoring strategies for students.
- Using a variety of delivery methods, which will stimulate learning that is appropriate to student needs and meets the demands of the Health Sciences syllabus.
- Undertaking assessment of students as requested by the Ministry of Education.
- Marking and grading students work which enables you to give written/verbal and diagnostic feedback.
- Supporting and motivating students to allow them to improve and enhance their own skills.
- Preparing students to become well rounded individuals who commit to personal development.
- Supporting partnership events with key stakeholders including students, parents, employers, schools, etc.
- Demonstrating suitable intervention strategies when expected standards of behaviour are not demonstrated.

<b>Discipline:</b>	Health Sciences Teacher (Male and Female)	<b>Publication:</b>	V1
<b>Project:</b>	English Department	<b>Published Date:</b>	April 2018

- Demonstrating the ability to be self directed with initiative and be able to solve practical problems with limited supervision.
- Demonstrating the ability to embed new forms of innovative Information and Learning Technologies into learning.

The post holder may be required to undertake any other duties which may reasonably be required as within the nature of the duties and responsibilities of the post as defined.
